

18

ICIFMS

18th. International Conference on Internal Friction and Mechanical Spectroscopy (ICIFMS-18)

September 12-15, 2017 - Foz do Iguaçu, Brazil

TOPICS

1. Development of fundamental internal friction theory and mechanism;
2. Atom dynamics, diffusion and phase transformation;
3. Surfaces, interfaces, thin films and nanostructured materials;
4. Anelasticity characterization of functional and structural materials;
 - Composites;
 - Ferroelectric and magnetic materials;
 - Granular materials;
 - Metals, alloys and intermetallic compounds;
 - Quasicrystals, amorphous materials and liquids;
 - Polymers and soft materials;
 - Biomaterials;
5. Dynamical mechanical analysis;
6. High damping materials and applications;
7. Development, design and potential applications of novel internal friction techniques.

IMPORTANT DATES

April 30, 2017 — ~~March 26, 2017~~
Deadline for abstract submission

May 7, 2017 — ~~April 30, 2017~~
Notification of acceptance

May 14, 2017
Early Bird Registration

July 16, 2017
Regular Registration

From July 17, 2017
Late Registration

September 15, 2017
Deadline for Manuscript
